## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-3, 8 and 32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification, as originally filed fails to provide antecedent basis the "self sealing releasable contact adhesive" being "in the gripping section". Page 7 of the original specification discloses the "self sealing releasable contact adhesive" as being located between the gripping sections 17, 19 and openable side 16. This is a new matter rejection.

Claims that have not been specifically mentioned are rejected since they depend from claims rejected under 35 U.S.C. § 112, first paragraph.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 9 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Steidinger.

5. Claims 1-3, 8, 9 and 32 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hiersteiner. See Figs. 3 through 8-A.

As a note, the paper money placed inside the mailer of Hiersteiner meets the recitation of applicant's "insert paper sheets" and "additional rectangular insert paper sheets".

### ***Response to Arguments***

6. Applicant's arguments filed 06/24/2005 have been fully considered but they are not persuasive.

In response to applicant's argument that the Steidinger reference fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., insert paper sheets being disposed adjacent to each other and substantially free of adhesive) are not recited in the rejected claim. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

7. Applicant's arguments with respect to claims 1-3, 8 and 32 have been considered but are moot in view of the new grounds of rejection.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
